Vytex Bay & Bow Windows

Add more room to your rooms

Add space, light, and viewing area to your favorite rooms by installing your choice of replacement windows from the extraordinary Vytex Bay & Bow windows. They'll give your home a new, roomier appearance – a sparkling look that you will agree is nothing short of awe-inspiring.

Framed with furniture-grade wood and clad on the exterior with protective vinyl, Vytex Bay & Bow windows offer both strength and style. The windows' interiors feature rich, hand-selected birch or oak veneer, ready for paint or stain.* Moving sashes tilt in or swing open for easy access, and our special formula vinyl wipes clean with a damp cloth. With Vytex Bay & Bow windows, you'll never have to scrape or paint outside again!

*Birch is standard and oak is optional.

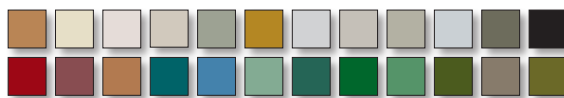

Vytex Bay & Bow windows are a masterpiece of energy-efficiency. Our windows' unique construction makes it easy for you to maintain the comfort level inside your home in every season. And because Vytex Bay & Bow windows are so durable, your home's new look will last a lifetime.

Color, Cut, and Clarity

Vytex Bay & Bow windows add jewel-like brilliance to your home. Take your windows from basic to brilliant by choosing from an array of color options, grids, and simulated divided lites:

SpectraCoat™ Exterior Coating System

Add durability and long-lasting beauty with this environmentally friendly, low-maintenance exterior color coating system, available in more than 25 colors.

*Swatch colors in this brochure are only approximate.
Available in Casement and Heritage only.*

DesignerGrid™ Custom Grid Options

These custom window grids add the luxury and sophistication of cut glass without the high price.

Simulated Divided Lites (SDLs)

Create a custom look with our SDLs, available in a variety of colors and configurations. SDLs add the look of a real wood divided lite sash.

Available in Casement and Heritage only.

Envirosealed™ Technology

Vytex's Envirosealed energy-efficient windows can lower energy bills and ensure a greener future for the planet. Envirosealed's Dura Platform warm edge spacer technology offers:

- **Improved comfort** – Encapsulated air chambers keep homes warmer in the winter and cooler in the summer.
- **Guaranteed lower energy bills** – Save more than \$200 each year in energy costs.
- **Reduced environmental impact** – Improve the environment indoors and out by reducing greenhouse gas emissions.

1. Special formula PVC used in our windows never needs painting, makes cleaning a snap, and prevents scratching or denting.
2. Multi-channel design allows for additional insulation between window units.
3. 1/4" all threaded steel rods between struts tie head and seat boards together for added strength.
4. Duraseal by Truseal™ The warm edge technology glass spacer system reduces heat transfer and provides improved seal integrity.
5. 1" hardwood cabinet grade veneer head and seat board available in birch or oak.
6. Insulated glass unit with optimal glass space improves year-round performance.
7. Insulated seat board helps increase energy savings.

The industry's strongest
Warranty

No more worries. Your windows are covered forever. Look at the terms of our Limited Lifetime Warranty. Lifetime coverage for the sash and frame and lifetime coverage for the locks and other hardware.* A warranty this strong demonstrates Vytex's confidence and it's your assurance of value now and in the future.

*Covers material only. Labor and delivery are not included.

Vytex makes every effort to be an environmentally conscious company. In keeping with that philosophy, this brochure was printed on recycled paper using soy-based inks.
